

## Mathematics

We have been looking at counting in twos and the two times tables. Show me how you practise these at home.

Remember you don't just have to write these in your book. You might make a game and have an adult film you playing it.

## Reading

Lots of children in our class have already achieved their 20 reads. How many times can you read at home in the next two weeks? Make sure this is recorded in your diary.

### Pine Class Homework

Friday 2nd November

Please hand back in by Friday 17th October or once completed

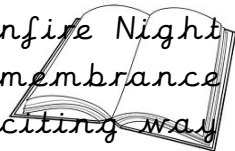

## Spellings

How many words can you learn to spell this week?

Remember you can exceed your challenge and work on the silver and gold ones too.

## English

In English we have been learning about and writing about historical events. What can you find out about either Bonfire Night or Remembrance Day? Find an exciting way to share your findings.

### Parent Response

My child has completed this independently:

Yes

No

My child put in this much effort:

Any other comments:
