

24.11.17

Due in: 8.12.17

Year 6 Homework

Maths

Show that you can add fractions. For example:

the original fractions: $\frac{1}{3} + \frac{1}{2}$

with a common denominator: $\frac{2}{6} + \frac{3}{6}$

See if you can remember how to subtract them too!

English

We are working hard to make sure that we improve our vocabulary. List 5 adjectives that you use in your writing, and find 5 synonyms to improve them. E.g. tired - fatigued.

Reading

Think of a character from a book that you have recently read. Write 5 questions that you would ask that character.

Spelling

What words do you find difficult to spell? Think of 5 words that you often need help with when spelling, and practise them.

Homework can also be emailed to misshalfacree@bridlewood.swindon.sch.uk or misshulse@bridlewood.swindon.sch.uk
